

# Dreaming the dream

I extend a very hearty welcome to you as a parent who has shown interest in The Makrana

The major driving force behind my taking up of this school project has been the mixed experiences of a variety of parents with regard to schools in the country and this gave me an opportunity to closely examine the many features of our existing school system.

Most of the schools, unfortunately are still following a western pattern in learning, extracurricular activities and living. I strongly felt the need for a customization in our

school system, reorienting it to indian culture and traditions. Keeping this in view, we have experimented in a small way and initiated a few changes, which have already started bearing fruits.

At The Makrana Public School, we help children tap into their hidden potential by exposing them to diverse opportunities. The broad based, liberal education also helps them to rise above parochial mindsets and acquire a truly international outlook. In addition to this, children are trained to learn more by doing things themselves and trying out new ideas, taking failure and success in their stride, with all their energies focused on honest and

purposeful effort.

We, as management, have taken innovative initiatives to set up multicativies areas as spare time activities within school premises.

I have every hope and belief that The Makrana Public School is going to become a premier institution of its kind in this part of the Rajasthan, amply fulfilling the educational aspirations of the parents who bring their children to its portals.

**Sanjay Parashar**

Director

## **Vision**

Envisaging empowerment to develop energized, enabled enriched empowered youth who achieve excellence.

## **Mission**

To provide the young minds opportunities for realizing their utmost potential towards family, society & the country.

## **Aims & Objectives**

The school aims at providing congenial environment to develop all round personality of child, which is capable of taking up ever emerging challenges with foresight and confidence. Educational program of the school will help children to achieve the objectives given below:

1. Inculcating spirit of healthy competition, team work and co-operation
2. Develop appealing manners and etiquette.
3. To become person of principles and actions.
4. Develop the national and secular outlook.

## **Introduction**

Makrana Public School is an English Medium, Co-educational Senior Secondary School situated in Makrana. The artistically designed building is well equipped to accommodate our growing family as well as provides all the necessary facilities to our students. The school has started its operations in Year 2008 and grown into one of Rajasthan's leading school, providing academic excellence to our students. The school is recognized by the Department of Education, Government of Rajasthan and affiliated to CBSE, New Delhi.

Qualified and trained staff Members trains students in the field of music, dance and arts. Our students are enrolled in Scouts and Guides and NCC to help build leadership qualities. The school is managed by Jan Mangal Sansthan, board of eminent educationists and futurists.

We are partners with many educational organizations to help provide necessary life skills and guidance to our students. We proudly state that we are running a learning centre in our school to help support students with learning disabilities. Our facilitators are supported by regular and ongoing training to help impart child centered holistic learning.

## Kindergarten Program

The Makrana Public School is located in a suite of beautiful classrooms with a welcoming, safe, and well-equipped play area, all located in a secluded part of the school. The Pre-School of MPS i.e. **COLOUR CUBES** provides a wonderful introduction to learning and socialization within a warm and friendly international environment.

A well-balanced curriculum and theme-based instruction help the young minds integrate their learning smoothly. The emphasis is on exploring, knowing, understanding and forming their own ideas. The principles of learning applied in Kindergarten include Holistic Development and Learning (Aesthetics and Creative Expression, Language and Literacy, Numeracy, Self and Social Awareness, Integrated Learning, Active Learning, Supportive Learning, Interactive Learning and Learning through Play. The curriculum prepares children for a smooth transition to a more formal Primary curriculum.
